

Activity 1 - Keeping Time

- Use the phrase “*ready steady off we go*” as a ‘count in’ to ensure everyone starts at the same time
- Make sure that the ‘count in’ is identical every time

Activity 2 - Chord Pattern

- Create a pattern using adjacent chord bars to keep movements simple
- Keep your initial pattern easy to remember (G / G / A / A)
- To extend this exercise, groups may wish to compose their own progression
- Depending on the ability of your class you may be able to create two distinct progressions

Activity 3 - Instruments

- There are different guitar types (patches) within each instrument that provide variation.

Activity 4 - Additional Activities

- Can your class play the chord pattern perfectly in time with the accompanying drum beat
- Try learning a set rhythmic phrase for each chord
