

Activity 1 - Keeping Time

- Create a backing track using drums and other instruments
- Make a note of the chord progression of your backing track
- You may wish to practise the clapping exercise before students play an instrument

Activity 2 - Autoplay

- Practise playing in time as a group using both autoplay and live play
- Use a wide variety of instruments
- Mixing live play and autoplay together will create an authentic band feel

Activity 3 - Play Along

- Play your backing track with amplification. Your ensemble should use this as a play along track.

Activity 4 - Accompaniment

- Select your favourite instruments to develop a unique band sound
- Rehearse your arrangement with a sense of musicality
